Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Freshman Rhetoric The first seven chapters of this book have been completely rewritten, and the remainder thoroughly revised, so that it is in effect a new work. The most important changes are as follows: 1. Whereas the first edition was originally designed to be used with a companion text-book combining a review of grammar and correction of common errors, and was later issued with a supplementary English Drill Course, partly meeting this need, the present edition embodies in Chapters I, III, and V, and in the Glossary of Common Errors at the end of the book, sufficient material for this elementary review. 2. Particular attention is directed to the constructive exercises in sentence and paragraph writing upon assigned topics in Chapters III and V, which, alternated with freer work in connected exposition (Chapters II and IV), have been found to yield good results in combining discipline with spontaneity. The program is so planned as to avoid long unbroken stretches of necessary but monotonous drill. 3. A larger amount of illustrative specimens of expository paragraphs quoted from standard writers has been introduced into Chapter V. 4. The chapter on the library has been carefully revised to bring it up to date and to make it a more complete guide to elementary library research. 5. In order to allow more time for the elementary review during the first six weeks, chapters on study, recitation, and note taking have been omitted, and the oral work has been reduced.
