## The Liar's Tale: A History of Falsehood

By Jeremy Campbell

WW Norton & Co. Paperback. Book Condition: new. BRAND NEW, The Liar's Tale: A History of Falsehood, Jeremy Campbell, Lies are often so subtle, so deftly woven into easily acceptable truths, that we can fail to recognize them. Turning Sisela Bok's defense of truth in her book *Lying on its head*, Jeremy Campbell argues that deception should no longer be seen as artificial or deviant, but as a natural part of our world. Beginning with a study of evolutionary biology and the necessity (and ultimate value) of deceit in the animal kingdom, Campbell asks the difficult question of whether falsehood might, in fact, be instinctual. Guiding the reader through classical philosophy to more contemporary thinkers such as Freud and Nietzsche, Campbell links a multitude of disciplines and ideas in lucid and engaging prose. Unsettling some of our most firmly held beliefs about truth and ethics, *The Liar's Tale* is a riveting work of intellectual history. "This challenging romp through the underbelly of intellectual history is fascinating and troublesome." -New York Times Book Review "[A] beautifully written book. a crisp and remarkably readable discussion." -John Frohnmayer, *The Wilson Quarterly*.

### Reviews

*Absolutely among the best publication I have got at any time go through. It really is writter in straightforward phrases rather than hard to understand. Its been designed in an extremely straightforward way which is just soon after i finished reading this publication through which basically modified me, alter the way i believe.*

-- **Mrs. Velda Tremblay**

*This is the very best book i actually have read till now. It is loaded with knowledge and wisdom I am just easily could get a satisfaction of reading a created ebook.*
