*These kinds of book is every thing and helped me hunting forward plus more. It is probably the most remarkable book we have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Orient BlackSwan, New Delhi, India, 2010. Hardcover. Book Condition: New. Dust Jacket Condition: New. First Edition. Capping the biggest mountains in south Odisha are some of the worlds best deposits of Bauxite, the ore for aluminiummineral wealth to bring prosperity to one of Indias poorest states. But for tribal people who have lived around them since history began, these mountains are sacrednot a resource to be exploited, but a source of life itself, through the water they store, and release in perennial streams. So metal factories, built in tribal areas with a view to mining the mountain summits, are seen as a new colonial invasion, to be resisted. Thousands of Adivasis have already been displaced, in a process of cultural genocide, that involves notorious scams, and corrupts the values of civil society at the same time as wasting irreplaceable resources. Aluminium is a metal we take for granted in hundreds of artefacts. But what do we understand about its real costs? This book traces a hidden history, coming alive through hundreds of voices and stories, of how one country after another swallowed promises of prosperity, and plunged into a cycle of exploitation and unrepayable debt. What is the link between the massive meltdown of Icelands banks, and the promotion of dams and smelters? Between the mafia-style looting of Russias assets and the rise to power of a succession of aluminium barons? Why did the US set a limit during the 1950s-60s and start to outsource aluminium factories to other, poorer countries, such as Ghana, Guinea, Jamaica, India? The answer lies in hidden subsidies and prohibitive externality costs. Making aluminium consumes vast quantities of water and electricity. The industry is driven by a cartel that fuses mining companies, investment bankers, government deals, metals traders and arms manufacturers. Secret deals motivate the...
