Heliopause Productions, United States, 2014. Paperback. Book Condition: New. 214 x 149 mm. Language: English . Brand New Book ***** Print on Demand *****.In a universe much like our own, Professor Alister Bane lives a quiet life as an archeologist at Oxford University. But when a nearby excavation triggers a psychotic episode in one of his colleagues, Professor Bane finds himself tumbling down a rabbit hole of strange phenomena and frightening possibilities. Having to contend with a slew of disappearing interns and his own terrifying hallucinations, Alister Bane finds his mind-and his whole world-unraveling even as he searches for a solution. It all comes down to half-forgotten memories, a madman's allusion to the thing with terrible arms and a nightmare of being trapped in a cold, dark place. But when he finds the answer, it is something beyond even his wildest dreams. The Elder Machine is the fourth installment in Goldeen Ogawa's sci-fi novella series chronicling the adventures of Professor Odd-and in this case, Professor Bane as well.
