The New Laws of Psychology: Why Nature and Nurture Alone Can't Explain Human Behaviour

By Peter Kinderman

Little, Brown Book Group. Paperback. Book Condition: new. BRAND NEW, The New Laws of Psychology: Why Nature and Nurture Alone Can't Explain Human Behaviour, Peter Kinderman, This controversial new book describes how human behaviour - thoughts, emotions, actions and mental health - can be largely explained if we understand how people make sense of their world and how that framework of understanding has been learned. In this ground-breaking book, Peter Kinderman, presents a simple, but radical new model of mental well-being. Published following the publication of the new edition of the controversial, Diagnostic and Statistical Manual, the author challenges notions such as 'mental illness' and 'abnormal psychology' as old-fashioned, demeaning and invalid, and argues that diagnoses such as 'depression' and 'schizophrenia' are unhelpful. Kinderman argues that one consequence of our current obsession with a medical approach to human well-being and distress, is that human problems are too often merely diagnosed and treated, rather than understood. Witten by an expert in his field, and accessible to all those interested in and affected by mental health issues, The New Laws of Psychology will change the way we define mental illness forever.

Reviews

Simply no phrases to clarify. It is really basic but surprises from the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
