One ice box for cheese. One ice box for butter. One ice box for cooked meats and salads. One ice box for milk. COST OF EQUIPMENT. It is impossible to do more than present a few general statements as to cost of kitchen and catering equipment. In any large cafeteria or restaurant labor-saving machinery and apparatus will be found economical, quite regardless of original cost, provided that only high-grade articles are purchased. In the British Health of Munition Workers Committee reports some estimates of equipment costs are given, but they are hardly applicable to this country. Prices too, here, as elsewhere, are continually changing. The most practical way to learn the cost of equipment is first to determine upon the number of employees to be fed and then solicit plans and bids from reliable firms which make a specialty of manufacturing and handling hotel equipment. In this connection the following quotation from a recent article will be of interest: A lunch room for which construction and equipment costs were given was built to seat 1,100 people at one time. The room...
