

## Pivotal Decade: How the United States Traded Factories for Finance in the Seventies

Filesize: 6.46 MB

### **Reviews**

*This publication is really gripping and exciting. It really is basic but unexpected situations in the 50 % in the book. It is extremely difficult to leave it before concluding, once you begin to read the book.*

## PIVOTAL DECADE: HOW THE UNITED STATES TRADED FACTORIES FOR FINANCE IN THE SEVENTIES

Audible Studios on Brilliance, 2016. CD-Audio. Condition: New. Unabridged. Language: English . Brand New. In this fascinating new history, Judith Stein argues that in order to understand our current economic crisis, we need to look back to the 1970s and the end of the age of the factory the era of postwar liberalism, created by the New Deal, whose practices, high wages, and regulated capital produced both robust economic growth and greater income equality. When high oil prices and economic competition from Japan and Germany battered the American economy, new policies, both international and domestic, became necessary. But war was waged against inflation, rather than against unemployment, and the government promoted a balanced budget instead of growth. This, says Stein, marked the beginning of the age of finance and subsequent deregulation, free trade, low taxation, and weak unions that has fostered inequality and now the worst recession in 60 years. Drawing on extensive archival research and covering the economic, intellectual, political, and labor history of the decade, Stein provides a wealth of information on the 1970s. She also shows that to restore prosperity today, America needs a new model: more factories and fewer financial houses.
