Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1914 Excerpt: .out with a new type of asbestos plaster at the present time to ascertain whether that is going to be effective for moderately high temperatures. If it is satisfactory, it will increase the field for reinforced concrete chimneys as it is cheaper than firebrick. I do not recollect any other points that were raised. MR. FIANDER ETCHHELLS: --There is just one little point not yet clear. You stated that the corrosion of steel chimneys was from the inside, and therefore in this country they were not desirable, but in America, where it is a drier climate, they could be used. I am rather doubtful as to whether the climate inside a chimney in this country is different from the climate inside a chimney in America. Mr. CANE: --I certainly think the rainfall has a distinct influence on the life of the steel chimney. Mr. ETCHHELLS: --Even though the corrosion be inside? Mr. CANE: --Yes, certainly. In the case of two steel chimneys we have reconstructed, the corrosion was caused by water probably coming down from the top, between the lining and the shell, although it might have penetrated through badly riveted joints; but I think it came down from the top. In either case, it would appear reasonable to assume that the humidity of the climate has an influence on the life of a steel chimney shaft. MR. PERKINS: --What would you say as to the requirement of the Building Act for the foundations in chimney...
