## On the Classification of Frogs (Classic Reprint) (Paperback)

By William E Duellman

Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from On the Classification of Frogs The purpose of this paper is to provide a classification that is reasonably compatible with the evolutionary morphology of adults and larvae, and consistent with the continental configurations throughout the history of frogs. The basis for the classification essentially is a synthesis and re-evaluation of data in the literature plus some new data of my own. Hopefully this classification will provide some stability for reference by non-systematists and a basis for future modification by systematists. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
